MARIE SIXTINE calls on
Studio JANRÉJI to design its
Paris-based stores.**

Studio Janréji has designed Marie Sixtine's stores to resemble a sketch of a Parisian apartment. Its bohemian-chic, quietly decadent, refined style, illustrated by a delicate selection of raw materials, muted colours and accessories.

The portrait of an eclectic Parisian

Porcelain lighting installations, designed by Axelle Sabatier and Louis Barbaray, reflect the gentle sophistication of Marie Sixtine's collections. Associated with a selection of vintage design and contemporary furniture designed by Studio Janréji. The subtle and feminine graduation of off-whites, pastel pinks and raw materials, employed in their simplicity, create the easy elegance of a Sunday-morning in Paris.

Each complimenting element creates the spirit Marie Sixtine, beckoning the passer-by to open the doors of her soft and feminine wardrobe and take a peek inside.
